WE take pleasure in presenting to the citizens of Baltimore and vicinity the first Street Car Reference Book and Directory ever published, and feel assured that it will be found a valuable reference book by all who use it, as every street car line in the city and suburbs is given, showing the streets that the cars run on and every street that they cross, with the number of street at each corner, also all Churches, Hotels, Theatres, Depots, Banks, Parks, Cemeteries, Wharves, Public Buildings, Hospitals, Halls, &c., that the cars pass or go near. Also the Suburban Towns and Resorts, Catonsville, Towson, Woodberry, Hampden, Highlandtown, Curtis' Bay, Brooklyn, Acton's Park, Roland Park, Tuxedo Park and Walbrook Park. It will also be found a good Street Directory, as almost every street in the city is given. To find a place or street in any part of city or suburbs, refer to Index in back of book and see what line of cars the street or place is on and then refer to page indicated, and the exact location will be shown. As for example if you wish to find the Carrollton Hotel from Druid Hill Park, you refer to Index and find that it is on page 206, and then refer to that page and it will be seen that it is passed by the Madison Avenue or White Line; or if you wish to reach 2,004 Druid Hill Avenue, you find that Baltimore Traction Co.'s cars run on that street, and by referring to page 5 it will show you that it is near corner of Bloom street. If the place or street is not found on one line of cars look through index of all others, as you can find almost every place and street in the city in this book.

We also refer with pride to the advertisements of nearly five hundred business houses of Baltimore represented in its pages.

Respectfully,

J. F. JONES & CO., PUBLISHERS.
